FIGURING INTEREST

The answer in each case being in cents, separate the two right-hand figures of the answer to express in dollars and cents.

Four per cent . . . Multiply the principal by the number of days to run, separate the right-hand figure from the product, and divide by nine.

Five per cent . . . Multiply number of days, and divide by 72.

Six per cent . . . Multiply number of days, separate right hand figure and divide by six.

Eight per cent . . . Multiply by number of days, and divide by 45.

Nine per cent . . . Multiply by number of days, separate right-hand figure and divide by four.

Ten per cent . . . Multiply by number of days and divide by 35.

Twelve per cent . . . Multiply by number of days, separate right-hand figure and divide by three.

Wanted! Men and Women Who Are Hard of Hearing

To make this simple, no risk hearing test with Ourine drops used in simple syringe. If you are deafened, bothered by ringing, buzzing head noises due to hardened or coagulated wax (cerumen), try the Ourine Home Method test that so many say has enabled them to hear well again. You must hear better after making this simple test or you get your money back at once. At all drug stores.

To find out time in which a sum of money will double itself at a certain rate of interest, divide seventy-two by the rate of interest, and the result will be the number of years. For example, at 4% money will double in eighteen years; at 8% it doubles in 9 years. The rule is correct to within a fraction of a year for all rates from 3% upward.

1ST PRIZE—\$11.00

MRS. E. R. CARTER
Pleasant View, Va.

Wash Painted Walls from the bottom up, to prevent streaking. Water running down on a soiled wall leaves stains that are difficult or impossible to remove. If the wall is already clean and moist, water running down will not leave stains.

2ND PRIZE WINNER—\$6.00

MRS. J. W. FLEMING

802 East Jefferson St., Bloomington, Ill.

Protecting Fingernails—Last summer, I went to help a friend pick off grapes for canning. Before commencing work, I painted over the ends of my fingers and thumbs, like a thimble, two coats of red fingernail enamel. After I was done with the grapes, there was no stain on my fingers at all, after I washed my hands in cold water. By the next day, the fingernail polish was off. Always before, grapes would stain around the nails so badly.

Dishes on Ice—In placing dishes on ice, put a rubber band ring taken from a fruit jar under the dish. The rubber will prevent the dish from sliding. (\$1.00 Prize—Mrs. Ola Bell, 210 East 17th St., Texarkana, Arkansas.)

Horoscope—Jan. 20 to Feb. 18

Aquarius

Aquarius children are hard to meet but easy to know. Pleasant and agreeable, they're modest, shy and retiring when meeting new people and introduced to new attachments. They love peace, harmony and quiet rather than pursuing social ambitions. The love of music and literature is outstanding in their make-up and these children are often creative, inventive and resourceful. Those born under this sign are best guided by directives and many taking the initiative often fail.

BRIGHT SAYINGS OF CHILDREN

Mother: "What are you doing in the pantry, Johnnie?"

Johnnie: "Fighting temptation, mother."

Want Ad—1945 Style: Man with two cans of corn wants to meet girl with two cans of beans. Object: succotash.

Nurse: "Oh, ma'am, what shall I do? The twins have fallen down the well."

Mother: "Dear me! Go into the library and get the magazine which contains an article on How To Bring Up Children."

Question: "What is heredity?"

Answer: "Heredity is what we believe in until our children start proving it."

Then there was the little lady who was so dumb she thought a goblet was a sailor's child.

Horoscope—Feb. 19 to Mar. 21

Pisces

Pisces children are the most useful of friends. Their character is one of affability and magnetism. Due to their abnormal sensitivity they must be treated with kindness and sympathetic persuasion—never with hastiness or harshness—and when treated so, they become your friend for life. They are socially active and enjoy being the center of their admiring circle. Those born under this sign are naturally passive but make good teachers, statesmen, and helpers in welfare work. Also their intuitive powers fit some for occult studies.

Horoscope—March 22 to April 20

Aries

Aries children are good mixers, easy to know and meet though flattery must be fed them to keep them happy. They're quick to anger but just as quick to forgive and to forget. Give them flattery, affection, and sympathy and you will find them loyal and congenial friends. Pleased by small gifts and attentions, they will grant you favors in return. Those born in this month are fitted for teaching, secretarial work, artistic designers, musical professions and make good business executives.

THIS STANDS FOR HONORABLE SERVICE TO OUR COUNTRY

To you, the insigne above may be instantly recognizable as the Honorable Service Emblem awarded to veterans of the present war. But to millions of Americans, it means nothing. A man may have sacrificed an arm or a leg for the privilege of wearing the Emblem . . . yet many civilians will not even notice it in his lapel. Or they may mistake it for the badge of a social organization or a sports club. If these veterans are to have the respect and the consideration they so richly deserve, that Emblem should be as readily recognizable as the uniform they once wore.

BRIGHT SAYINGS OF CHILDREN

(Continued from page 11)

Query: "What is a pedestrian?"

Reply: "A pedestrian is the raw material for an accident."

Harry: "I see in the paper that a scientist claims insects can talk to each other."

Barry: "Of course they can. Aren't moths always chewing the rag?"

Prosecutor: "Now tell the court how you came to take the car."

Defendant: "Well, the car was parked in front of a cemetery, so naturally I thought the owner was dead."

Clerk: "What is a Christmas tie?"

Customer: A Christmas tie is that which if a man starts wearing is a sign business is bad."

First Student: "This butter is so strong it walks over to the cup of coffee and says, 'How do you do?'"

Second Jerk: "Yes, but the coffee is too weak to answer."

Little Boy: "I want two cent's worth of bird seed, please."

Dealer: "Have you many birds, sonny?"

Little Boy: "I haven't any. I want to grow some."

Artist: "I'll give you five dollars if you let me paint you."

Ignorant Mountaineer: "It's easy money, hain't no question about that. I'se just wonderin' how'd I git the paint off afterwards."

Mamie: "Did your garden do well this summer?"

Susie: "No, every time my husband started digging he found a lot of worms so he'd always quit and go fishing."

Young Man to Old Man: "To what do you attribute your longevity?"

Old Man—Not too dumb: "To the fact that I never died."

HONEYMOON

The term "honeymoon" is of Teutonic origin and derived from a luxurious drink prepared with honey by the ancients. It was a custom to drink of diluted honey for thirty days, or a moon's age, after a wedding feast.

STATE NAME

When we call the roll of the states and come to "Rhode Island"—the name sounds right and proper to us all. But the real and actual name of the littlest state is more imposing—it's "the State of Rhode Island and Providence Plantations."

MONTH BY MONTH DUTIES IN FARM AND GARDEN

JANUARY—Start the year by manuring and preparing the soil for the hardier plants. For instance, White Potatoes can be planted next month so get ready. Late this month you can plant for early crops of Peas, also Onions and Shallots. Carrots, Lettuce and Turnips can be sown if weather conditions are favorable. Prune hedges, vines, fruit trees on sunny days.

FEBRUARY—Finish pruning and transplanting trees and vines. Dress beds for Asparagus; and bed Yams for slips. Outside sow Asparagus, Cabbage, Cauliflower, the root vegetables, and the leaf vegetables (Spinach, Cress and Parsley). Sow Tomato, Eggplant and Pepper under glass with gentle heat to produce for transplanting later. Plant Early Corn, outside.

MARCH—Continue planting—this time the slightly-later varieties of Peas, Onions, Parsley, Celery, Tomatoes, Corn, Cabbage, Strawberries. Work for crops of Pumpkins, Okra, some Bean varieties. Sow Parsnips, Eggplant, Lettuce, Radishes, Carrots for early spring consumption when people are tired of canned and preserved foods. Watch for frosts around fruit trees—have your smudge pots ready for cold nights.

APRIL—Cauliflower and Broccoli if planted on favorable days this month should yield well. Watermelon, Muskmelon, Squash, can now be planted, choosing sandy soil suitably fertilized. Look over the plantings of the previous month and if any of these are not thriving too well or weather conditions have been against their growing properly, replant so it will not be too late to get a good crop. April is the turning point for most early vegetation.

MAY—Now you are ready to transplant the growing things you have been raising under glass—that is, if the weather permits. Water them well and constantly if there has not been sufficient rain and for a time protect from the sun by paper or muslin covers. (This includes Celery, Winter Cabbage, Tomato and Sweet Potato slips.) You can now plant the later varieties of Corn, Beans, Pumpkins, Winter Squashes, Peas and Beans.

JUNE—Continue your transplanting, especially if May weather has been inclement. Work with Nature, not against her. Protect tender plants against the sun until they have a chance to root well. This concerns Celery, Winter Cabbage, Tomatoes, Sweet Potatoes—and the Cabbage can even be grown direct from seed if planted now and shaded by day until the seedlings are up. Prepare by frequent digging and plowing for good crop of Turnips planted latter part of month.

JULY—This is the month to really work for fall crops, and winter supplies. Some Irish Potatoes, Onion and Shallots should be ready to pick and store. Replant Celery, Cabbage and other June plantings which have not come up to your expectations. Get your ground ready for Winter Cabbage; also plant fall varieties of Turnips and Beets.

AUGUST—Make your preparations for new crop of Lettuce and Spinach, because by now your earlier varieties have probably been picked and eaten. Keep a constant supply of "greens" coming on—the family like them or they can readily be sold. Plant Melons and Cucumbers for pickling. Set out late Tomato plants. Attend to your Celery, by earthing or transplanting same. Sow Turnips, Beets and Radishes.

SEPTEMBER—Winter-use Turnips can now be sown—Flat Dutch and Red Top are best for this purpose. Mustard and Cabbage are now in line to be planted to be set out in February. Straw-

berry beds should now be gotten ready and the plants set out. On the whole, however, September is a time to enjoy one's garden.

OCTOBER—Keep planting Strawberry beds. Red Top Turnips may be sown for winter use, but don't let this go too late in the month. Devote most of October to your manure heaps and in getting your garden tools in good shape for next spring's use. October too is the time to enjoy the fruits of your garden rather than work in it.

NOVEMBER—Early English Beans and Peas may be planted this month. Strawberry beds planted and Sweet Potatoes started. Mainly devote November to vine pruning which should be done especially after a killing frost. Begin to prune fruit trees also. In most localities this is a good time to plant new fruit trees to take place of old which have not thrived, and pruning will discover these. Get the earlier ground manured and prepared for spring planting.

DECEMBER—Finish the tree-pruning because when the leaves are off and the tree has been stripped "to the bone" by frosts is the best time to prune. A job well-done now will result in a plentiful crop next summer, so see that you get first-grade pruning or learn to do it yourself in professional fashion. And in December look over the results of your year's garden work—note your successes, study your failures and decide that with the coming of the New Year you will have more of the first and fewer of the last.

WEED CONTROL

The following treatments for common weeds will be found efficacious in many cases and save much back-breaking labor.

RAG WEED—Spray with iron sulphate, but the best preventative measure is deep plowing on the hottest possible day after crop is harvested.

LEAFY SPURGE—Common salt if made into a heavy brine and sprayed thick is accepted practice.

BARBERRY—Common salt at bottom of bush.

PEPPER GRASS—Let ground lie fallow for two or more years, followed by thick crop of grass—Sudan grass recommended.

COCKLEBUR—When these weeds are young can be eliminated with iron sulphate; then cultivate the great for two years at least.

HORSE NETTLE—Just before freeze can be expected, plough ground deeply. Apply salt or strong salt-solution to young plants any time in year, but best in spring.

WILD MUSTARD—Spray (on a sunny day) Iron Sulphate very heavily—some experts say 50 gallons to the acre is the proper amount. Better too much than too little.

FIELD BINDWOOD—Common salt in salt solution should be applied very heavily if weed is present only in small patches. If trouble is serious over large areas, only remedy is keeping fallow for two years.

WHAT IS RADAR?

One of the most remarkable weapons developed in World War II is RADAR. So many stories have been told about this remarkable discovery, that it sounds to most of us like a lot of black magic.

Yet RADAR, basically is simple. If you shout at a hillside, and count the seconds before the echo comes back, you can easily tell how far you are from the hill . . . because we know that sound travels a fifth of a mile in one second.

RADAR enabled London's defenders to tell the exact location of German bombers taking off from the continent . . . and to tell exactly the course they were taking. RADAR enabled an American battleship to sink a Jap battleship with the second salvo, at a range of eight miles, and in pitch black night.

A RADAR transmitter sends out a signal, or wave pulse at regular intervals. This wave pulse rebounds from any object it encounters, and returns to the receiver, where the time elapsed since its departure is measured.

Minute time intervals are measured by the cathode ray tube, whose screen gives visual images of the transmitted pulse and the echo pulse reflected by the target.

In some instances, the image on the screen can be made to indicate the size and outline of the target, so that RADAR becomes a veritable mark-probing electron telescope!

RADAR will be a blessing in peacetime as well as in war. Ships in heavy fog, will no longer have to grope blindly, at slow speed. RADAR will tell about menacing icebergs, reefs or other ships, long before a collision can occur.

Aeroplane pilots need no longer fear mist-hidden mountain peaks, other ships in the air, blind landings on unknown fields. Planes in flight, may be traced from the ground, and warned by radio when they stray from their courses.

RADAR is just one of the major war-time discoveries that will mean much to us in the years to come . . . but it's one of the greatest!

THE CONTINUING NEED FOR CLOTHING FOR OVERSEAS RELIEF

By Christmas approximately 25,000,000 children, men and women in the liberated countries overseas will have received clothing donated by the American people in the United National Clothing Collection of last spring. But 25,000,000 is only a small percentage of the destitute, homeless and looted people of Europe, the Philippines and the Far East.

Devastation and want in those lands are on so vast a scale as to be almost beyond our comprehension. Millions there are even now inadequately clad for winter weather, for health and for self respect. It is estimated that in China alone 200,000,000 people need clothing.

Among these threadbare millions, there are people of every age and from every walk of life—new-born babes, school boys and girls, aged farm couples, the village choir master, the woman who went out sewing, office clerks, doctors, teachers, young mothers, sick and fear-haunted ex-prisoners of war, the nearly hopeless wrecks from slave labor camps, and even newly elected big city officials. Most of them live and work in unheated rooms, for fuel, too, is still acutely scarce.

In the bomb-gutted, ruin-strewn lands, peace alone could not bring an end to the war-created shortages in raw material, yard goods, clothing, shoes and bedding. The shipments of clothing that Americans donated were not nearly enough to go around. Yet as these war-sufferers try to rebuild their factories and their lives, they need clothes for courage, protection and survival.

These people are not asking you to give them Utopia—but only serviceable things like your old coat—the one with the frayed edges but a warm lining, or the baby blankets so long stored away. Without the help of these people you and I will never get even an approximation of Utopia. Without their help, there will be no peace for our children.

The clothes which were hanging useless in American homes last year and which were gathered together in the nation-wide clothing collection and shipped overseas by UNRRA have made the difference between a hoped-for Happy New Year and no new year at all for many hundreds of thousands of our fellowmen overseas. . . . A coat and a pair of shoes—the difference between despair and renewed faith. . . . A baby's blanket—the difference between a Christmas to celebrate and an empty house.

Here are some letters these people have written to YOU

POISON IVY

Some of these days, science will squelch all our noxious weeds and shrubs, poison snakes, mosquitos and bothersome bugs. There's no doubt but that we're making headway.

But, until that day comes, poison ivy will continue to be one of the banes of our existence . . . and the doctors tell us that no one's immune. You may have handled poison ivy hundreds of times and not been "bitten" . . . the hundred and first time you'll come down with a beautiful rash.

Pets often go wandering into a poison ivy patch, and come back unharmed, themselves, but carrying enough of the oils from the ivy leaves to poison your hands. Some skins are less sensitive than others . . . all skins are susceptible at times.

Scratching spreads the poison from one part of the body to another. The best-known remedy is lots of strong soap and water, and a shower. DON'T take a tub bath, because poison ivy oil, like any other oil, floats on top of the water, and gets back on your skin.

Soap cuts oil. Use it lavishly. Then wash down off the body and away. When you dry yourself, don't rub hard. That irritates the little poison blisters. Just blot the water off lightly.

Flowers are the sweetest things that God ever made and forgot to put a soul into.—Beecher.

"LION'S SHARE"

When Johnny gets the biggest piece of cake, it's a common saying that he "got the lion's share." But the original meaning of "lion's share," taken from Aesop's Fables, meant ALL.

FARMERS' MAIL ORDER HOUSE

628 Broadway (Dept. 7), New York 12, N. Y.

"The 7 Keys to Power alleges to teach," the author says, "All the Mysteries of Life from the Cradle to the Grave—and Beyond. It tells you the particular day and hour to do anything you desire, whether it be in the light of the moon, sun, or in total darkness."

He claims, "The power to get what you want revealed at last, for the first time since the dawn of creation. The very same power which ancient Chaldeans, Cuthic, Priests, Egyptians, Babylonians, and Sumarians used is at our disposal today."

He says, "Follow the simple directions, and you can do anything you desire. No one can tell how these MASTER FORCES are used without knowing about this book, but with it you can mold anyone to your will."

From this book, he says, "You can learn the arts of an old Science as practiced by the Ancient Priestly Orders. Their marvels were almost beyond belief. You, too, can learn to do them all with instructions written in this Book." Lewis de Claremont claims, "It would be a shame if these things could all be yours and you failed to grasp them."

He claims, "It is every man's birthright to have these things of life: Money! Good Health! Happiness! If you lack any of these, then this book has an important message for you. No matter what you need, there exists a spiritual power which is abundantly able to bring you whatever things you need."

OVERCOME ALL ENEMIES, OBSTACLES AND HIDDEN FEARS! Are You Crossed in Any Way?

The Seven Keys to Power, Lewis de Claremont says, shows you how to remove and cast it back.

THE BOOK PURPORTS TO TELL YOU HOW TO—

- Gain the love of the opposite sex.
- Unite people for marriages.
- Obtain property.
- Make people do your bidding.
- Make any person love you.
- Make people bring back stolen goods.
- Make anyone lucky in any games.
- Cure any kind of sickness without medicine.
- Get any job you want.
- Cast a spell on anyone, no matter where they are.
- Get people out of lawsuits, courts, or prison.
- Banish all misery.
- Gain the mastery of all things.
- Regain your youth and vigor.

Choose words according to ancient holy methods.

The ONLY TRUE Book of SUPREME MASTERSHIP

This is the Power. He says, from which the OLD MASTERS gained their knowledge and from which they sold limitless portions to certain favored Kings, Priests, and others at high prices, but never to be revealed under a vow, the violation of which entailed severe punishment.

The Vow Has Now Been Broken

This book, he claims, shows you the secrets of old which when properly applied makes you able to control the will of all without their knowing it. If you have a problem and you wish to solve, he says, don't hesitate. Advertisements cannot describe nor do this wonderful book justice. You must read it and digest its meaning, to really appreciate its worth.

GUARANTEED TO SATISFY OR YOUR MONEY REFUNDED. Only a limited number available for sale, so don't wait. It is worth many times its price. If you are wise, you will rush your order for it NOW! **\$1.49**

MORE EPITAPHS

On the tomb of a Liverpool brewer:

Poor John Scott lies buried here,
Although he was both hale and stout,
Death stretched him on the bitter bier;
In another world he hops about.

In the cemetery at North Stratford, N. H.:

Freem, the husband of Mary, for her faults, blame him, for her virtues, honor her. I have done the best I can, Mary, to see you are not forgotten.

Mary, wife and mother for 36 years a member of the Willard family, and well she kept her poise; it was an achievement.

This at Bath, Maine:

Our life is but a winter's day
Some breakfast and away. Others to
dinner stay
The oldster slips and goes to bed.
Large is his who lingers out the day
Who goes the soonest has the least to say!

Also at Bath, Maine:

Accidentally shot as a mark of affection
by his brother.

And finally in the Mount Auburn Cemetery, Boston:

Here lies John Witherbee,
A Boston gallant chap was he,
God has no use for such as he,
The Devil rejected Witherbee.

EASY DOES IT

Father: I am so excited. Quick, quick!
Tell me, nurse is it a boy or a girl?

Nurse: Well, Mr. Brown, the one in the middle is a boy.

THE CONTINUING NEED FOR CLOTHING FOR OVERSEAS RELIEF

(Continued from Page 24)

"We are very happy to have received your gift of clothing and we thank you very much, as we have been bereft of all our linen, furniture and other belongings. This is not gay at our ages—63 and 69—after working all our lives."

"My husband and I are deeply touched by the kindness shown by our American friends who have felt pity for our sufferings and have wanted to soften them by relieving our distress. It is with a heart very moved that we address our thanks to the generous and devoted donors. We shall preserve forever a great and eternal gratitude."

"We are five teachers belonging to the same family and were totally bombed out. Not a single thing were we able to save. I cannot possibly express to you the joy and happiness that the sight of your clothes brought to the whole family. It is great and noble to give aid in this way to those who have lost all, and to do it so generously."

These "thank-you" letters are from a town in France. Can you read them without a lump coming into your throat? Aren't you glad now that you gave your bundle of used clothing to the United National Clothing Collection last spring?

It was a friendly thing we Americans did—the sharing of what we could spare. It was a token of our good will.

In the Victory Clothing Collection we have the chance to befriend many more boys and girls and men and women—as we have befriended 25,000,000.

When you send a gift to a friend you enclose good wishes. Contributors to the Victory Clothing Collection are encouraged to enclose a friendly message with their gift of clothing.

UNUSUAL PETS

\$10.00 PRIZE WINNER

BESSIE SMITH

Guion, Ark.

Dogs and cats, roosters and ponies, hoptoads and mice and many other animals all found themselves in the Farm Woman's Almanac Pet Parade. Bessie Smith, of Guion, Arkansas, won the prize with this letter . . . "My pet is a king snake . . . very valuable to have about the place as no other snakes or rodents dare stay near him. I found him about five years ago in the corn crib, looking for mice. He was not in the least afraid of me, but lay very still while I shucked corn all around him, occasionally touching him. He stayed two summers in the corn. The third year, he stayed under and around the brooder house where the chicken snakes had always managed to steal a few of the best chicks. Nary a chick was caught while he was around. This year, he stayed near another flock of chickens, protecting them from harm."

Horoscope—May 21 to June 20

Gemini

Gemini children are hard to win and harder to hold. Generally socially popular and centers of their own crowds, alone they're reticent and hard to approach, difficult to know. Ruled by Mercury, they have sharp intellects and command the ability to use words well. Due to their duality, allowances must be made and not too much can be expected of them. Constancy is not their forte and many times their

INSPIRED GRACE

The minister had dropped in just as preparations for supper were nearly finished, and the good wife felt obliged to delay the meal while she prepared something adequate for the occasion. When the meal was served, this was the minister's grace.

"The Lord be praised!
How I'm amazed
To see how things have mended.
Short-cake and tea
For supper I see
Where milk and mush were intended."

OUTLINE OF THRIFT

Old maxims of prudence are well understood,
Having seasoned her copybook, salted her blood.
She hones up her wits on a barter with friends.
Large eggs when she borrows and small when she lends.
Her basket goes lightly to picnicking groves
And returns heavy proof of the blessing of loaves.
The hay crop from trampled-down meadows is small.
So she picks her field berries well over the wall.
And on a spring morning, as pert as you please,
Comes peddling her parsnips, and begging your peas!

Cash Prizes IDEAS FOR THE LUNCH BOX

1ST PRIZE—\$25.00

MRS. CARL LANDIS
Exie, Ky.

I find children often lose interest in sandwich lunches, because of too much bread, and as a result, get "bogged down appetites" . . . or eat the spread from the bread and soon become underfed. If this is your trouble, bake several of your favorite pie-shells . . . "individual" of course, and store in a dry place. They'll keep very well. Fill with the following, as needed . . . Creamed chicken, cubed pork with onions, oysters, baked with red catsup . . . with eggs, scrambled with cheese, with salmon, or with olives . . . with peas in cream sauce, creamed carrots, lima beans with pickle, fresh corn or creamed mushrooms, or with desserts . . . custards, fruit, pudding, rice or bananas.

2ND PRIZE—\$10.00

MRS. NORMAN S. NASH
R. D. 1, Northeast, Pa.

Cooked liver, put through the food chopper with a little onion and moistened with catsup and mayonnaise, half and half, makes a tasty and nutritious sandwich filling for box lunches.

Grate cabbage, carrots and a little celery and add a little mayonnaise. Cut some Vienna sausage. Mix and spread thickly between bread slices. (\$1.00 Prize—Mrs. Hattie Kennedy, R. 1, Biscoe, N. C.)

In fixing lunches for my husband, I use small jars in which I have bought salad dressing, to put jello, etc., in. I always fill one with beans or some vegetable and another with a salad. These, with a fruit, cake, etc., make a well-balanced meal. (\$1.00 Prize—Mrs. Charles Watson, Cynthiana, Ky., R. 2.)

Finely chopped cucumber with onion juice, seasoning and mayonnaise, spread between slices of buttered whole wheat bread, is delicious. (\$1.00 Prize—Mrs. Bayard Moore, 127 So. 11th St., Monmouth, Ill.)

Cook pineapple in butter. Drain, chop and add with cooked chopped chicken, with a little mayonnaise. (\$1.00 Prize—Mrs. Lee Key, Hickory, Oklahoma, R. R. 1, Box 68.)

Vegetable Sandwiches—For a chopped, raw vegetable sandwich, use a combination of carrots, celery, cabbage, cucumber, radishes, green pepper and onion. Chop vegetables fine, and moisten with salad dressing. (\$1.00 Prize—Mrs. Rhoda Denny, Pineville, Ky., R. 1.)

One apple and a small raw carrot. Pint of hot chocolate milk in thermos. Slice of buttered bread with lettuce and sliced radishes and a little salt. Cover with mayonnaise and top with a slice of buttered bread. Container of lime jello. (\$1.00 Prize—Miss Edna Hopkins, Pomfret Center, Conn., R. F. D. 1.)

Sandwich Filling—Mixed pickle, sour or sweet, with chopped hardboiled egg, spread on bread. (\$1.00 Prize—Mrs. William Taylor, Raleigh, Ill.)

IDEAS FOR THE LUNCH BOX

(Continued from Page 34)

Sandwich Spread—Cold ground meat of any kind, few sweet pickles. Cut up hardboiled egg. Add mayonnaise. Fine with salt-rising bread. (\$1.00 Prize—Mrs. Edna Emmons, 5505 Winthrop Ave., Indianapolis, Ind.)

Unusual Sandwich Spread— $\frac{1}{4}$ cup chopped ripe olives, $\frac{1}{2}$ cup finely chopped dates, $\frac{3}{4}$ cup chopped roasted almonds. Mayonnaise to blend. (\$1.00 Prize—Mrs. Roland Huff, Conyers, Ga.)

Wherever you live, you can probably buy some canned or frozen fruit not native to your own part of the country. Guava jelly for northerners . . . blueberries for southerners, etc. Try making sandwiches out of these different fruits and jellies for a change. (\$1.00 Prize—Theodore E. Brown, 1215 East Market St., Indianapolis, Ind.)

TIPS FOR THE AGRICULTURALIST

ACID SOILS are often caused by a washing-out by rain, and through too close cropping, thus diminishing of the natural lime from the ground. Such soils become progressively less and less fertile and in time will fail to produce at all . . . If acid soil is suspected as a cause of poor crops, try liming that soil to reduce acidity and supply calcium . . . The amount of lime to be used depends upon the type of crops desired and to the extent of the acid-damage. Experts state one-half to one ton per acre is about correct. Liming when necessary should be done every five or six years.

PLANTING TIME—Old-time farmers believing in the influence of the moon on vegetation recommend that the "dark" of the moon is the best time to plant "root vegetables." Top crops they think should be planted a week or so later, when the moon is new and increasing, but never on the first day of the new moon. Since such agriculturalists are often noted for their success in raising large and healthy crops, the advice would seem to be worth heeding.

OUTDOOR FISHPOND is easily made by digging hole the proper size and then concreting it in. Edge the circle or oval with grass. Pile in center a few picturesque rocks and stock with hardy fish. Most any state fish hatchery will supply a few fish for the asking. If you use warm-climate fish you'll have to put them in indoor aquarium for winter. Feed fish regularly with food to be had in any pet shop. Be sure to allow for fresh water supply preferably laid by pipe to bottom of the pond, and excess pipe preferably at the top—both screened to prevent the fish from swimming through the pipes.

When Japan signed her surrender to General MacArthur, the news, camera and radio men alone numbered more than 300.

HOUSEHOLD HINTS CONTEST

(Continued from Page 6)

Watering Plants—Place pieces of an old sponge in the bottom of your flower pots. This will help retain moisture and you won't have to worry about watering your plants so often. (\$1.00 Prize—Mrs. L. W. Todd, 574 E. Palm Ave., Burbank, California.)

Removing Polish from Wood—To take nail polish off of woodwork, take baking soda, salt and alcohol, mix and rub gently. (\$1.00 Prize—Charlotte Rae Webb, Olive Hill, Kentucky, R. R. 1.)

Clothespin Help—Keep a spring clothespin in your knitting bag. When you stop knitting, clamp needles together with the pin. This will keep the stitches from slipping, and the knitting will be easier to hold in proper position. (\$1.00 Prize—Miss Blanche Self, Abingdon, Va., Route 1.)

Cleaning Food Grater—After grating cheese or any food on a grater, it's easier to clean it if you take a small raw potato and grate it over the used grater. Rinse with cold water. Grater will be clean as a whistle. (\$1.00 Prize—Adlena Frazier, 1603 Howard St., Hartsville, S. C.)

Removing Oil Spots—I keep a can of talcum powder handy while sewing. If any bit of machine oil accidentally gets on the material, I sprinkle the place quickly with the powder. When I brush the powder off, there is no spot or stain left on the material from the oil. (\$1.00 Prize—Miss Imogene Waldrep, Russellville, Ala., Route 7, Box 55.)

Soak Curtains First—Before washing curtains, soak overnight in cold water. Most of the dirt will be removed before you start to wash them. (\$1.00 Prize—Mrs. Jacob E. Ford, Fairfield, Pa., R. 1.)

Churning Butter—Before putting the wooden paddle of the churn into the cream, dip it in boiling water for a minute and the butter will not stick to it, when it's churned. Also dip your wooden spoon and mixing bowl in hot water before you mix the butter. (\$1.00 Prize—Mrs. Lyle Lewton, Ralph, S. D.)

Removing Iron Rust from Cloth—Take the juice of a lemon and mix with table salt, about half and half. Wet the rust spot and place in hot sun. If first application doesn't take it out, apply more and continue until all the rust disappears. If you don't have lemon, green tomato juice and salt will do the work. (\$1.00 Prize—Mrs. J. C. Albritton, Myakka City, Fla.)

Cleaning Shoes—To clean black spots on brown shoes, soak rag or sponge in milk and rub until spots come off. Try it! (\$1.00 Prize—Ann D'Zelan, R. D. 2, Box 247, Johnstown, Pa.)

ADVICE FOR

ABUSED SKIN

**DON'T BE AFRAID AND STOP WORRYING
NOW ABOUT EXTERNAL SKIN TROUBLES.
FOLLOW THESE EASY DIRECTIONS.**

By Betty Memphis

Have you ever stopped to realize that the leading screen stars that you admire, as well as the beautiful models who have lovely, soft white skin, were all born just like you with a lovely smooth skin?

Almost everyone can have a natural, healthy, normal complexion which is in itself beauty. All you must do is follow a few simple rules. Models and screen stars must give their skin special attention. So should you, because everyone looks at your face. Your social success may depend upon your being good looking, because a lovely skin may be a short cut to success in love and business. Your pleasure is worth it; and you owe it to yourself to give your complexion a chance to be healthy and beautiful.

Medical science gives us the truth about a lovely skin. There are small specks of dust in the air all the time. When these little specks, which are in the air get into an open pore in your skin, they can in time cause the pore to become larger and more susceptible to dust and infection. These open pores begin to form blackheads which become infected and bring you the misery of pimples, irritations or blemishes. When you neglect your skin by not giving it the necessary care it requires, you leave yourself wide open for external skin miseries.

The proper attention with the double Viderm treatment may mean the difference between enjoying the confidence a fine skin gives you or the embarrassment of an ugly abused skin. The double Viderm treatment is a formula prescribed by a doctor, and costs you only a few cents daily.

This double treatment has worked wonders for so many cases of abused skin, it must help you, too, or your money will be refunded. Use it for ten days. You have everything to gain and nothing to lose. It is a guaranteed treatment. Enjoy it.

Use your double Viderm treatment every day until your skin is as smooth and clear as you may want it. Then, use it only once a week to remove stale make-up and dust specks that infect your pores and to aid in healing external irritations. When you prevent blackheads, you prevent externally caused skin miseries and pimples. While your two jars and the doctor's directions are on the way to you, be sure to give your face enough attention and wash it as often as is necessary. Wash with warm water and then cleanse with water as cold as you can stand, in order to freshen, stimulate and help close your pores. After you receive everything, read your directions carefully, and then go right to it with these two fine formulas.

Just mail your name and address to Betty Memphis, care of The New York Skin Laboratory, 206 Division

Street, Dept. FW-1, New York 2, New York. By return mail you will receive both of the Viderm formulas, with full directions for using Viderm Skin Cleanser and Viderm Fortified Medicated Skin Cream. The doctor's directions and both jars are packed in a sealed carton, safety sealed. On delivery, pay two dollars plus postage. If you wish, you can save the postage fee by mailing your two dollars with your letter. If you are in any way dissatisfied, your money will be cheerfully refunded. Both of the formulas you use have been fully tested and proven, and are reliable for you. They must help you or your treatments cost nothing. After you have received your Viderm, if you have any questions to ask concerning abused skin, just send them in.

Horoscope—Sept. 23 to Oct. 22

Libra children though easily won and attracted do not make deep, serious or close friends. Good conversationalists, they admire wit and mental brilliance and match the best with their own but are able to resort to unkind criticism and biting sarcasm. Attracted by affection and artificiality, they also love the occult and have a flair for the mysterious and have a fondness for hearing themselves talk. Born under this sign, they favor business in exporting, shipping and mental activities.

Horoscope—Oct. 23 to Nov. 22

Scorpio

Scorpio children are apt to be blunt and outspoken and, despite ill-favored exteriors, really become good friends when once cultivated. Often misjudged as cold and overbearing, this exterior is not indicative of their true selves for they can be devoted and kind, and can be counted on in a crisis. They enjoy neatness and orderliness in dress and deportment and make excellent nurses, have marked skill in engineering ability and business approach. Famous under this sign: Paderewski, Hedy LaMarr, Robert Louis Stevenson.

Sagittarius

Sagittarius children are not easily impressed by your position or possessions but prefer looking into your sterling qualities and mental attainments of character. They must be played up to in their interests rather than featuring your own but they love and appreciate beauty and intelligence and are dependable. Those born under this sign are better business persons than artistic types and favor politics and law.
